### **Port of Oakland Protest (No Change)**

Oakland Police Department (OPD) is expecting 500-1000 demonstrators on Saturday, August 16, 2014 to protest the ships partly owned by the government of Israel. Although no law mutual aid has been requested, the Port has reached out to Alameda County Sheriffs Office (ACSO) for Law Enforcement support. The distinction is that this is a planned event and therefore not technically mutual aid. OPD is planning on having their Department Operations Center (DOC) open on Saturday. The protest is planned to occur, even if the ships cancel their arrival to the Port. Cal OES Law Enforcement Branch and the Cal OES Ports and Harbors representative continue to monitor the situation and coordinate information.

### **San Bernardino County Flooding, San Bernardino County (Update)**

#### **Update:**

- At 1730 hours on 08/11/14, the San Bernardino County Operational Area deactivated.
- San Bernardino County submitted its most current IDEs to Cal OES Recovery, yesterday at 1400 hours. The Operational Area is resuming normal operations.

Background: On 08/03/14, the Southern Duty Officer (SDO) was notified by the California State Warning Center (CSWC) that San Bernardino County Operational Area (SBOA) emergency operations center (EOC) had activated at a Level I in support of the significant flood events for the following areas in San Bernardino County; Forest Falls, Mount Baldy, Oak Glen and Lytle Creek. Flash floods Sunday brought thick debris flows that cut off access to towns. Numerous residents in the San Bernardino Mountains were unable to get out because the roads were covered with mud, rock and debris. Per the SDO there are no unmet emergency management and access and functional needs (AFN) nor any requests for State assistance.

# **SITUATION SUMMARY**

## **Los Angeles County Severe Thunderstorms, Los Angeles County (New)**

- Los Angeles County Operational Area Proclaimed a Local Emergency due to the Summer Thunderstorms that began on August 03, 2014.
- Los Angeles County is working on IDE assessments for the Summer Thunderstorm event, no information available at this time.

Background: Beginning on August 3, 2014 Los Angeles County was impacted by severe thunderstorms affecting the San Gabriel Mountain and Foothill communities and unincorporated areas. The heavy rains resulted in the damage of property, triggered debris and mudflows, and rockslides, that blocked culverts, damaged bridges, and caused the closure of transportation routes. Several County Departments were engaged in response and recovery activities. The heavy rains had a negative impact on local businesses, individuals, and transportation routes.

## Northern California Significant Weather

The National Weather Service (NWS) is forecasting increased thunderstorm potential for interior portions of northwest California, August 10th through Tuesday, August 12th; mainly afternoon and evening hours.

Red Flag Warnings and Fire Weather Watches have been issued for northern CA and much of OR through Tuesday.

### **Potential Event Impacts:**

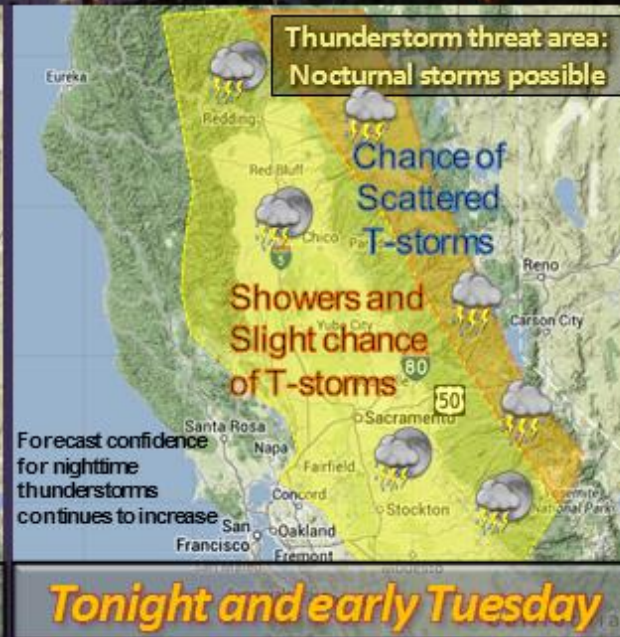

- A low pressure system will form off the west coast on Saturday and settle to just off the northern CA coast by Sunday. The dynamics of this system along with residual moisture, daytime heating and a strengthening jet stream will result in perfect conditions for a significant and widespread thunderstorm outbreak event beginning Sunday and continuing through at least Tuesday, with nocturnal storms a good possibility.
- A significant number of dry lightning strikes are expected with these storms along with strong gusty outflow winds.
- Warm and very dry conditions currently exist and are forecast to continue throughout much of this region this weekend and into early next week.
- All of these ingredients add up to high potential for several large fire starts.
- Northwest CA and southwest OR look to be the focus of this event although the rest of northern CA and the rest of OR will likely see thunderstorms as well.
- The most critical time for lightning started fires is Tuesday (8/12).

## Southern California Significant Weather

**Weather Threats:** Blowing Dust, Thunderstorms (Flash Flooding), Thunderstorms (Heavy Rain), Thunderstorms (High Winds)

**Event Summary:** A return of monsoonal flow will bring a chance of thunderstorms this afternoon/evening and again on Tuesday, mainly over the mountains and high deserts. Some drying is possible by Wednesday as winds try and turn more westerly aloft but confidence is low at this time.

This monsoon surge is weaker than the event that occurred earlier this month and steering flow favors the mountains and high desert areas. Stronger winds aloft also decrease the threat for flash flooding from individual storms as they are less likely to remain in place, however thunderstorms can sometimes reform along favored downwind slopes, so isolated flash floods are still possible.

**Timing:** Through Wednesday

**Location:** Coachella Valley, High Desert, Riverside County Mountains, San Bernardino County Mountains, San Diego County Deserts, San Diego County Mountains, Coachella Valley, High Desert, Orange County Coast, Riverside County Mountains, San Bernardino County Mountains, San Diego County Coast, San Diego County Deserts, San Diego County Mountains

**Storms/System Intensity:** Weak (low impact) / Weak to moderate (possible localized impact)

**Impacts:** Gusty thunderstorm outflow winds and a chance of local flash flooding

**Forecaster Confidence:** Low to Moderate

# SOUTHERN CALIFORNIA WEATHER

## Mountain and Desert Thunderstorms Today and Tuesday

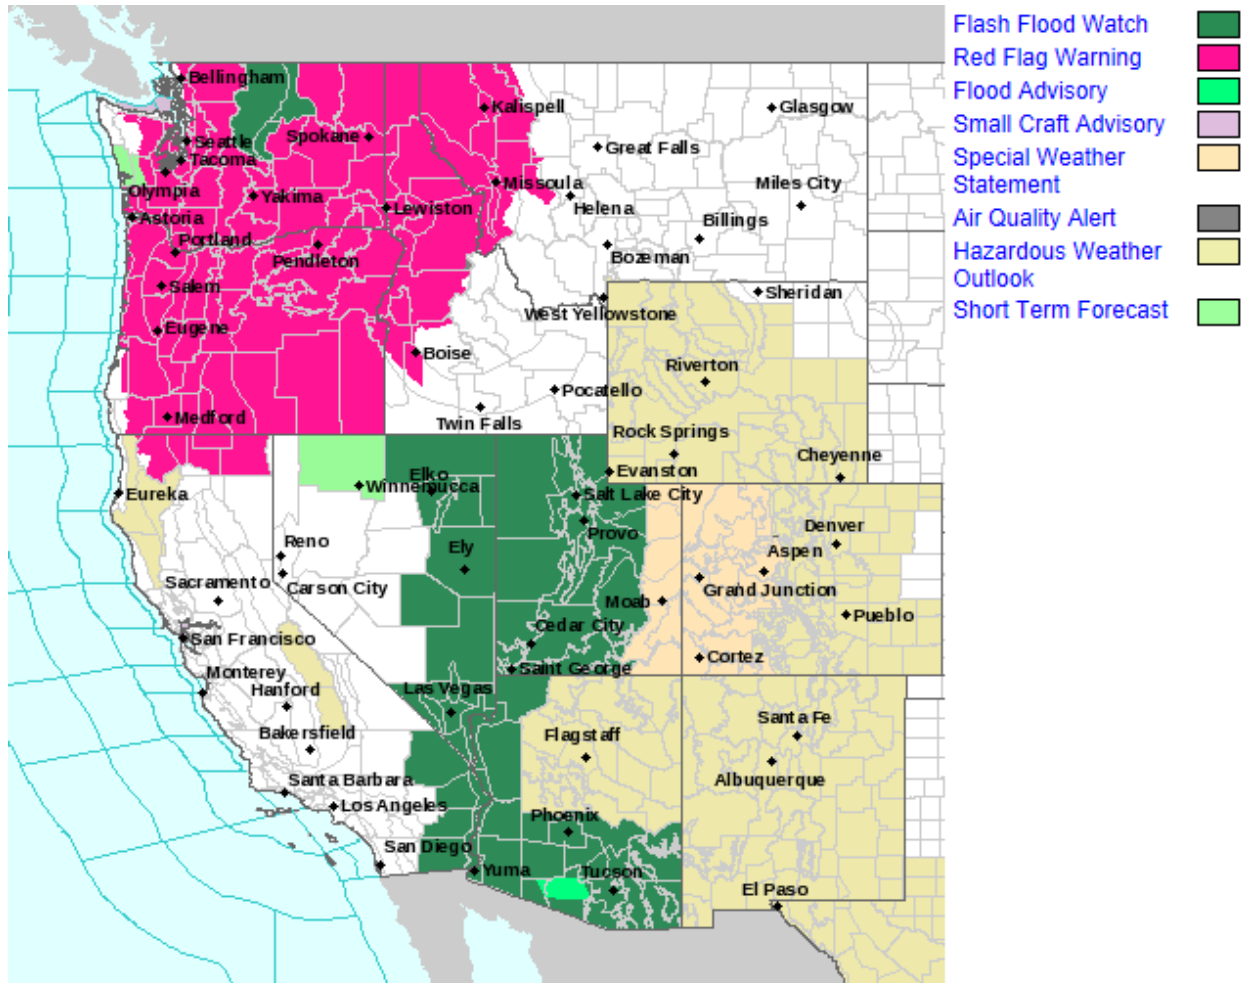

**Inland...** Isolated thunderstorms during the afternoon and evening hours for the mountains and deserts. Elsewhere fair skies and near average temperatures will prevail.

**Beaches...** Night and morning low clouds will continue, with water temperatures of 68-74 degrees and waves 2-4 feet.

### Situational Summary

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

- Current Reservoir Levels continue to decline. Levels as of August 10<sup>th</sup> : Don Pedro 43%; Exchequer 19%; Folsom Lake 40%; Lake Oroville 34%; Millerton Lake 50%; New Melones 25%; Pine Flat 12%; San Luis 20%; Lake Shasta 33%; Trinity Lake 33%; Pyramid Lake 93%; and Castaic Lake 47%.

- Emergency Drinking Water Procurement and Distribution Planning Guidance (rev. May 2014)

Significant changes have occurred to the structure of California's state government organization. Rapid advances in systems, science, and technology have helped emergency managers improve coordination, forecasting, and situational awareness. Because of these changes, the *Multi-Agency Emergency Response Procedures for Potable Water Procurement & Distribution* document has been replaced by the *Emergency Drinking Water Procurement and Distribution Planning Guidance*. The intent of this guidance document is to clarify the roles and responsibilities of the stakeholders involved in locating, procuring, and delivery of emergency drinking water<sup>1</sup> to populations in California. Consequently creating a framework for agencies and organizations to work together to enhance preparedness.

### Situational Summary

- State Board Mandatory Conservation Regulations Now in Effect: The state's first-ever emergency regulations mandating urban water conservation became effective will be in effect until April 25, 2015.

# CAL OES MISSIONS

## Ongoing Cal OES Missions

- **2014-LAW-3978**, On 08/05/2014 at 1519 hours, this law mission was continued at the request of San Bernardino County Sheriff's Department (SBSD). SBSD is requesting Los Angeles County Sheriff's Department (LASD) Mine Team to assist in a continuing search for human remains related to an active, ongoing homicide investigation in the Twenty Nine Palms area. The continued search was scheduled for this weekend, 8/09-8/10; however, has been postponed to the following weekend, 08/16-17/2014. LASD's Mine Team has accepted the mission and will respond. **Update: 8/7/2014, 1010 hours, SBSD advising the planned mission for this weekend, 8/9-10/2014, is being postponed to the following weekend, 8/16-17/2014 with LASD Mine team still assisting. Mission On-Going.**

# CAL OES MISSIONS

## Closed Cal OES Missions

- **2014-LAW-4796, 8/10/2014, 1547 hours.** The International Emergency Response Coordination Center (IERCC) reported a Spot activation in Kings Canyon National Park near the middle fork of the Kings River. The registered owner of the device, a 51 year old male was reported to be on an 8 day, 100 mile hike with several other people. The device used was an older style device without two way communication capabilities. Sequoia Kings Canyon National Park rangers were notified. The rangers used a helicopter to fly into the given coordinates and made contact with two subjects. They complained of dehydration and diarrhea, but neither requested medical treatment or evaluation. They said they were too tired to continue their hike and wanted a ride out. The Park Rangers evaluated other options but ended up extracting the subjects by helicopter. **Mission Closed.**
- **2014-LAW-4777, 8/10/2014, 2100 hours,** Nevada County Sheriff's Department (NCSD) requesting resources to locate a missing person out of Placer County NCSD located M/P's vehicle in the area around Boca Rest Camp just east of Truckee. NCSD is requesting 10 area search dog teams and 20 ground searchers for Monday, 08/11/14 at 0800 hrs. Sierra, Yuba and Marin County Sheriff's Departments are responding with ground search teams. California Governor's Office of Emergency Services (Cal/OES), Law Enforcement Branch (LEB) is coordinating the search dog response. **Update:** **8/10/2014, 1130 hours,** Nevada County Sheriff's Office reported that the missing person has been located, deceased. Apparent victim of a suicide. **Mission Closed.**

**Mission:**

We protect lives and property, build capabilities, and support our communities for a resilient California.

*We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.*
